

array_int_to_d_linked_list

array_to_d_linked_list

ft_lstadd_back

```
graph LR; A[array_int_to_d_linked_list] --> C[ft_lstadd_back]; B[array_to_d_linked_list] --> C;
```

The diagram illustrates a dependency or relationship between three functions. On the left, two white rectangular boxes with black borders contain the text 'array_int_to_d_linked_list' (top) and 'array_to_d_linked_list' (bottom). On the right, a gray rectangular box with a black border contains the text 'ft_lstadd_back'. Two blue arrows originate from the right side of the white boxes and point towards the left side of the gray box, indicating that both 'array_int_to_d_linked_list' and 'array_to_d_linked_list' utilize or depend on the 'ft_lstadd_back' function.
