

ft_strlcpy_optm

```
graph LR; A[ft_strlcpy_optm] --> B[ft_strlcpy]; B --> C[ft_memcpy]; B --> D[ft_strlen];
```

A flowchart illustrating the relationship between four functions. The first node, 'ft_strlcpy_optm', is a grey rectangle on the left. A blue arrow points from it to a white rectangle labeled 'ft_strlcpy' in the center. From 'ft_strlcpy', two blue arrows branch out to the right: one points to a white rectangle labeled 'ft_memcpy' and the other points to a white rectangle labeled 'ft_strlen'.

ft_strlcpy

ft_memcpy

ft_strlen
